A photograph of a Subaru OEMS Base NA SN100 2-MAY-2014 electronic control unit (ECU). The unit is a rectangular metal box with a silver-colored top and a darker, possibly aluminum, front panel. The top panel has a white label with the part number 86201FL60A and other specifications. The front panel features a circular fan in the center, several electrical connectors (yellow and black) along the bottom edge, and a small green LED indicator light on the right side. The unit is placed on a wooden surface with a ruler for scale, showing it is approximately 10 cm wide.
